TO USERS OF The National Oceanic & Atmospheric Administration/ National Geodetic Survey Airport Obstruction Charts (AOC)

The Aeronautical Data Sheet (ADS) will only be available through the following Internet website:

<ftp://ftp.ngs.noaa.gov/pub/uddf/info/dole.htm>

Effective October, 2000

The Aeronautical Data Sheet (ADS - NGS FORM 292) for Airport Obstruction Charts (AOC) created or revised after October 1, 2000 will no longer be included with the AOC. Data sheets for these AOC's must be downloaded from the National Geodetic Survey's (NGS) Internet site listed above. The ADS is a digital derivative of the AOC which presents runway and obstruction data in a tabular format. A limited number are now available in a printable Adobe Portable Document Format (pdf) through the Airport Obstruction DOLE URL listed above. The number will increase as new editions supercede old ones. The predecessor - the Obstruction Data Sheet (ODS) - will be issued for all AOC's published prior to December 1997.
